

Amendments to the Specification:

Please amend paragraph 0043 at page 8, lines 6-9 as follows:

Hardware is secured to the outer surface of the insert 30, which in this case provides a wooden face that is easily drilled or screwed. Figure 2 shows a strike plate 92 attached in a groove in the insert 30. As clearly shown in Figure 2, the strike plate 92 is shown with an opening. The groove is also sized and aligned with the opening of the strike plate 92 to accommodate the full throw of a dead bolt if desired.
